

Hyperion bmz South Sudan

What is BMZ Hyperion?

The BMZ Hyperion sets a groundbreaking standard in the energy storage industry. With its advanced high-voltage technology, the system not only delivers impressive performance but also boasts a high adaptability to diverse requirements. Developed in close collaboration with inverter manufacturers, BMZ Group offers all-in-one solutions.

Where is BMZ Hyperion made?

Made in Germany: Powerful energy storage The BMZ Hyperion SE (Special Edition) combines the highest quality and advanced technology in one energy storage system. Manufactured in Germany, it offers an outstanding combination of energy capacity, efficiency and reliability. Ideal for private households, commerce and industry.

What is BMZ Hyperion special edition?

Technical features and performance: The BMZ Hyperion Special Edition is available in different module sizes: - 3 modules: 7.5 kWh energy, 155 V nominal voltage (only compatible with SMA Sunny Boy Storage and Kostal PLENTICORE inverters)

Why is BMZ Hyperion a good choice?

The Hyperion's modular design enables flexible scalability, making it the optimal choice for both residential and commercial applications. Its focus on efficiency, reliability, and adaptability positions the BMZ Hyperion as a forward-thinking solution for sustainable energy supply.

What is a Hyperion SE (Special Edition)?

The Hyperion SE (Special Edition) sets new standards as a lithium-ion home storage system with innovative 18650 cell technology. Developed and built in Germany, it offers an impressive storage capacity of up to 15 kWh and is characterized by robustness and reliability. Made in Germany: Powerful energy storage

What makes the Hyperion a good storage system?

High quality lithium-ion battery cells are built into the Hyperion. The safe design and the robust construction follow the proven BMZ quality of the previous storage families. The emergency power storage reduces overall system costs and increases system efficiency. This is a genuine high-voltage memory; a hidden DC/DC converter is thus saved.

The HYPERION LONG LIFE home energy storage system from BMZ Group is a high-voltage lithium-ion storage system that has been developed for a self-sufficient energy supply. With an impressive lifespan of 20 years and a robust ...

The BMZ Group is supplementing its product range of energy storage systems with the high-voltage system Hyperion. Hyperion is a 300V modular expandable system for the residential market. BMZ created the new ...

Als führender Batteriehersteller bietet BMZ mit der Hyperion Long Life Serie eine Lösung, die genau diesen Anforderungen gerecht wird. Unser Fokus liegt auf der Lithium-Eisenphosphat-Technologie (LFP). Doch bevor wir auf die Vorteile dieser Technologie eingehen, wollen wir einen Überblick über die verschiedenen Batterietypen geben, die ...

The HYPERION LONG LIFE home energy storage system from BMZ Group is a high-voltage lithium-ion storage system that has been developed for a self-sufficient energy supply. With an impressive lifespan of 20 years and a robust design, it is ideal for a wide range of applications, including households, industry, medical systems and e-mobility.

BMZ Hyperion LONG LIFE (12.6 kWh): This high-voltage lithium-ion storage system impresses with a service life of 20 years and over 10,000 charging cycles. The robust metal construction makes it particularly durable and safe. Its flexible capacity and the option of modular expansion make it ideal for individual requirements.

Street scene in Juba, the capital of Southern Sudan. The economy of South Sudan depends to a large degree on the oil sector. It accounts for more than half of gross domestic product (GDP), 95 per cent of exports, and about 90 per cent of government revenue. During the civil war, the decline of oil production, the drop in oil prices and rapidly rising inflation led to a severe further ...
