Will China re invest Indonesia in 2024?

After its successful annual event in the last two years, Tenggara Strategics and CSIS Indonesia, will host the 3rd China RE Invest Indonesia in 2024 in a hybrid way, offline in Jakarta, and online via zoom on January 16, 2024, to keep the momentum of China's renewable energy investment in Indonesia.

How much is Chery's investment in Indonesia?

"Chery's investment in Indonesia for the production of this EV reaches IDR 250 billion as the initial phase to support our CKD process," Rifki Setiawan, Head of Brand at PT Chery Sales Indonesia (CSI), stated on December 3, 2023. Despite sharing facilities with other automotive manufacturers at HIM.

Why is Indonesia booming?

(AP Photo/Yusuf Wahid) With the world's largest known nickel reserves and rich deposits of cobalt, bauxite and other materials, Indonesia has been experiencing a mining boom on demand for stainless steel, electric vehicle batteries and more that are needed for the global energy transition.

Does Indonesia's mining industry need bauxite?

Indonesia's mining industry is rapidly expanding on demand for the minerals needed to help power the global energy transition, like nickel, cobalt and bauxite. But experts say it's coming at a cost for thousands of communities across the vast archipelago.

Why do Indonesia's small islands need special protection from mining?

The impacts and mining continue despite a March 2024 ruling by Indonesia's constitutional court that small islands such as Kabaena require special protection from abnormally dangerous activities, including mining, as they threaten ecosystems in vulnerable areas.

Welcome to Indonesia Energy Corporation We are an independent energy company engaged in the oil and gas business with operations primarily in Indonesia. Our strategy is to build an oil and gas assets portfolio with an optimum mix between medium-sized producing blocks and exploration blocks with significant potential resources.
