

Iris power Laos

Who is Iris Power LP?

Iris Power LP was established to provide high-quality products and services to improve maintenance capabilities for large motors and generators used by power utilities and heavy industries throughout the world. Iris Power was founded in 1990 and continues to be a globally recognized as a leader in condition based maintenance.

How do I contact Iris Power?

Iris Power sensors, instruments and software for condition based monitoring of motors, generators, switchgear, isolated phase bus and dry type transformers. Call us at +1 905.677.4824 or Toll Free at +1 888-873-4747 or fill out our online quote form below. If you are a human seeing this field, please leave it empty.

What services does Iris Power offer?

Iris Power offers installation supervision and commissioning services for all sensors and instruments to ensure optimum performance and configuration. Onsite training sessions that cover your important topics, at your site and on your scheduled.
