As part of our Sustainable September campaign, we are thrilled to spotlight Manx Solar Electrical Ltd, a business dedicated to helping the Island reduce its carbon footprint through renewable energy solutions. From solar panels to heat pumps and battery storage, Manx Solar Electrical is driving innovation in renewable technology.

Proposals for the very first utility-scale solar farm on the Isle of Man have been released by designer Peel Cubico Renewables (PCR). The 26MW Billown Solar Farm in Malew, near Castletown, would certainly produce enough power to fulfill more than 5% of the Isle of Man's power demand, when functional in 2024.

"The solar farm would generate enough power to meet more than 7% of the Isle of Man's current electricity demand and support the Government's aim for electricity on the Island to be 100% green by 2030." The project represents an investment of around £30m across the 40-year anticipated life of the project, with no public investment.
