Modular heat recovery ventilation available in a low cost, easy to install and easy to use IV50 Intelligent Ventilator product.

In 2024, amid various changes and confirmations, home bonuses in Italy remain a crucial incentive for encouraging the renovation and purchase of residential properties. ... For instance, expenditures on window frames and solar shading qualify for a 50% deduction, whereas renovations in common areas of apartment buildings, including seismic ...

Conto Termico 2.0 is a well-known incentive scheme offering financial support for renewable technology, such as solar thermal. Now, all systems subsidised by the scheme can be found on an interactive online map called AtIaimpanti, which also provides users with basic data on each installation. The map is without a doubt a shining example of ...

Substantial solar resources and a generous incentive scheme called Conto Termico 2.0: Perfect conditions, it seems, for the widespread use of solar district heating. But barriers such as a low gas price and the concentration of district heating in a small part of Italy have so far limited deployment to a few installed systems.

Pleion has been developing solar energy heating solutions since 2008. We reinvented solar thermal in Italy and around the world through our experience, expertise, and production capacity. We design, develop, and manufacture our ...

Apart from the problem with power cuts, there is a new product on the market from Ariston, solely for domestic hot water production. The model is the Nuos and uses a air/water heating system. This has an internal hot water tank of either 80/100 or 120 ltrs and last prices I had were circa Euro 1000 + IVA.
