

Which companies are developing solar power plants in Ivory Coast?

The Egyptian company Elsewedy Electric is also among the potential developers of the Laboa and Touba solar plants. The same goes for Infinity Power Holding and Nareva Holding, the subsidiary of the Moroccan group Al Mada. The selected IPPs will build solar power plants capable of delivering 60 MWp to the national grid in Ivory Coast.

Is Abidjan a good place to install solar power?

Abidjan, Ivory Coast, is a highly suitable location for solar photovoltaic (PV) power generation due to its relatively consistent average daily energy production per kW of installed solar across all seasons. In this city, the average kWh per day per kW of installed solar is 4.79 in Summer, 5.36 in Autumn, 5.25 in Winter, and 5.53 in Spring.

What is the topography of Abidjan & Ivory Coast?

The topography around Abidjan, Ivory Coast is generally flat with some rolling hills. The nearby areas that would be most suited to large-scale solar PV projects would be the coastal plains and open fields, as they provide plenty of open space for the installation of solar panels and other equipment.

How should solar panels be positioned in Abidjan?

In Autumn, tilt panels to 12°; facing South for maximum generation. During Winter, adjust your solar panels to a 21° angle towards the South for optimal energy production. Lastly, in Spring, position your panels at a 1° angle facing North to capture the most solar energy in Abidjan, Ivory Coast.

Find the top Solar Energy manufacturers, suppliers and companies from a list including Advanced Energy Industries, Inc., Solar Turbines Incorporated, Senix Corporation and more.

GDI is an innovation consulting and delivery firm for emerging countries Who We Are Global Development Innovation Advisors (GDI) is an innovation consulting and delivery firm, focused on accelerating access to essential services, ...
