

# Japan spear power systems

What is spear power systems?

Spear Power Systems is at the forefront of providing advanced energy storage solutions designed to operate in harsh environments. With a potent blend of performance, reliability, and safety, our batteries provide optimized solutions for mission critical applications.

Who owns spear power systems?

The company has a wide range of energy storage systems suited to meet any demand. Their family of TRIDENT maritime batteries offers multiple cell chemistries in Spear Power Systems was acquired by Sensata Technologies on Aug 23, 2021. Where is Spear Power Systems 's headquarters?

What makes spear a good company?

Spear was formed in 2013 as a spin-off of Dow Kokam's defense and industrial operations. Introduced Spear's G1 chemistry agnostic, scalable BMS (sBMS). Spear receives ISO9001 and AS9100 certification. Introduced Trident brand high-voltage, scalable COTS battery system for propulsion power.

About Spear Power Systems, Inc . (Spear): Founded in 2014 by experienced energy storage entrepreneurs Jeff Kostos, President & CEO, and Dr. Joon Kim, CTO, Spear designs and manufactures safe, high performance energy storage systems (ESS) for clients with some of the world's most demanding marine, industrial, and defense applications.

Spear Power Systems provides lithium-ion based battery management systems for industrial, marine, and defence purposes. The battery management system comes with power electronics which can provide voltages up to 1250VDC and thermal management systems which can work in high external temperatures.

Spear Power Systems LLC Genuine & OEM spare parts made in Japan, China, Korea and Europe for Maritime, Oil & Gas Industry. Contact us if you are looking for marine equipment and ship spare parts. [email protected] Equipment: Manufacturer: Spear Power Systems LLC Type / Model / Part no: Technical Specification & Spare Parts: Spear Power Systems LLC Contact ...

GRANDVIEW, Mo., October 24, 2019 - Spear Power Systems, Inc. (Spear) has provided an advanced lithium-ion battery system to Raytheon for the first counter-unmanned aerial system (CUAS) delivered to the U.S. Air Force. The system ...
