Lebanon has been experiencing rolling power blackouts amid soaring energy prices. The economic crisis was exacerbated by a massive explosion in August 2020 that tore through the capital, decimating the business district. The crisis is attributed by many to lack of oversight and mismanagement of finances by the political elite. In #Lebanon the ...

Delivered a comprehensive business plan that outlined strategies for process improvement, implementation, and scaling for Rolling Energy, a pioneering company focused on providing sustainable alternative fuel through vehicle conversion to CNG and refilling vehicles with gas across major states in Nigeria.

Today, Lebanon no longer has a functioning public grid, and individuals and communities are often left to sort out their own energy needs. But Lebanon has never had a history of seamless grid power service, even before the 1975-1990 civil war. Lebanon's state-owned electricity company, Electricité du Liban (EDL), was founded in 1964.

Rolling Energy drives Nigeria's clean energy shift with Compressed Natural Gas (CNG), paving the way for a sustainable, cost-effective future. Install CNG Conversion kits in two wheelers, four wheelers, three wheelers, Heavy Vehicles, and Generators.
