

Liechtenstein tiger solar battery

What is Sigenstor solar battery?

The SigenStor solar battery is the signature energy storage system from Sigenenergy, created to work seamlessly with their Hybrid inverter in a single elegant, and easily expanded device. Battery capacity scales from 5kW - 48kW 5-in-1 solution for Solar Inverter, Battery Packs, Battery PCS, EV Charger, and EMS

How many kW does a Sigenstor battery have?

SigenStor battery modules come in one of two capacity levels, 5kW and 8kW, with modules able to work together. This gives homeowners complete control of how much storage capacity they want in their solar battery system.

What are Sigenstor 5kW & 8kW battery packs?

The SigenStor 5kW & 8kW battery modules are part of an all-in-one solution for home solar power and EV charging which combines the inverters, battery modules and power management devices into a single elegant device. SigenStor battery packs are made with the latest LiFePO₄ lithium phosphate battery technology.

How safe is the Sigenstor battery?

The SigenStor battery features high level IP66 protection against water damage and ingress by dust and other particulate matter. The low voltage of the battery makes it safer for human handling, and the system has also been designed with five layers of safety protection.

o As a complete integrated solution, it allows homeowners to store renewable energy from solar panels for use during power outages or times when energy demand is high. o Util izing Solid-state battery technology, it offers safe, reliable storage and backup power for residential applications.

The SigenStor battery module allows for direct DC charging of electric vehicles by drawing power from the battery stack or straight from your solar panels as it is fed in for 100% green charging. The direct feed of DC power to the electric vehicle bypasses the AC to DC conversion required with home chargers, allowing for more rapid charging.
