

List of photovoltaic panel export companies

What are the top solar panel manufacturers?

The top global solar panel manufacturers, based on their scale, include companies such as TW-Solar, JA Solar, AIKO, and others - these manufacturers ship a large number of solar products around the world each year.

What are China's solar PV exports?

In 2021, the value of China's solar PV exports was over USD 30 billion, almost 7% of China's trade surplus over the last five years. In addition, Chinese investments in Malaysia and Viet Nam also made these countries major exporters of PV products, accounting for around 10% and 5% respectively of their trade surpluses since 2017.

Who are the top solar companies in the world?

In August 2023, Tongwei Group made history as the first solar PV company on the Fortune Global 500 list, and is currently the only solar company on the global list (as of March 2024). The top seven global solar panel manufacturers are mostly (though not exclusively) Chinese.

Who is the largest solar panel manufacturer in the world?

Tongwei Solar (TW-Solar) is the largest solar panel manufacturer in the world. TW-Solar shipped a whopping 38.1GW of solar modules in 2022, doubling Trina Solar's shipments and achieving an annual revenue of USD \$20.57 billion (£16.2 billion). In August 2023, Tongwei Group made history as the first solar PV company on the Fortune Global 500 list.

Is the solar PV market growing?

The solar PV market has been growing for the past few years. According to solar PV research company PVinsights, worldwide shipments of solar modules in 2011 was around 25 GW, and the shipment year-over-year growth was around 40%. The top five solar module producers in 2011 were: Suntech, First Solar, Yingli, Trina, and Canadian.

Where are solar photovoltaics made?

Industry-specific and extensively researched technical data (partially from exclusive partnerships). A paid subscription is required for full access. Tongwei, a cell and module manufacturer based in China, had shipments of around 38.1 gigawatts in 2022. Of the ten most prominent manufacturers of solar photovoltaics, eight are based in China.
