

SunDisc Solar Systems takes its design from the sun and has created solar collectors in the shape of a sphere. This sphere-shaped hood optimally captures sunlight and efficiently converts it to heat, which is transferred to the swimming water with the help of a robust system consisting of the collectors, pump, and control unit.

Dawn -- A time that marks the beginning of the twilight before sunrise. It is recognized by the presence of weak sunlight, while the sun itself is still below the horizon. Sunrise -- The moment when the top of the sun disc touches the horizon on sunrise. Solar noon -- The moment when the sun appears the highest in the sky, compared to its positions during the rest of the day.

Met SunDisc Solar Systems gebruikt u pure zonnewarmte om uw bad te verwarmen. Een frisse duik na een lange werkdag. Samen baantjes trekken. De kinderen zien opgaan in spetkend plezier. En dat allemaal onder de blote hemel. Elke zomer lang. Elke lange zomer... In Europa maakte al menig levensgenieter, van een dergelijke droom werkelijkheid.

De zon. Wat ons betreft leverancier van licht én bron van inspiratie. SunDisc Solar Systems heeft het design van haar bolvormige zonnecollectoren geïinspireerd op de vorm van deze oerbron. En heeft elke collector voorzien van een sferisch gevormde kap met een perfect doorberekende hellingshoek, zodat elke zonnestraal wordt benut.
SunDisc Solar Systems is een ...
