Why is the manufacturing industry important in Mauritius?

Over the past decades, the manufacturing industry has played an instrumental role in the economic diversification and transformation of Mauritius. Today, the manufacturing industry contributes 12,9% (2023) to our GDP, exporting 1,500 product lines to 115 countries worldwide and provides employment to nearly 62,000 persons.

Is Mauritius a global manufacturing hub?

The two main products dominating this industry in Mauritius over the last few decades were textiles and sugar. In recent years the offering has become more diversified and a multitude of incentives for manufacturers have been created, both fiscal and practical, that can help those looking to use Mauritius as a global manufacturing hub.

Why should Mauritius invest in a sustainable industrial sector?

A globally competitive and sustainable industrial sector that contributes to higher economic growth for Mauritius through continuous innovation, technology upgrading, productivity gains and high skilled employment.
