[Photo/SUMEC] At the recent 2023 Intersolar Europe event in Germany, SUMEC showcased its commitment to renewable energy by introducing the Phono solar power system, positioning itself as a key player in the solar industry.

Does Mexico have solar power?
Solar power in Mexico has the potential to produce vast amounts of energy. 70% of the country has an insolation of greater than 4.5 kWh/m 2 /day. Using 15% efficient photovoltaics, a square 25 km (16 mi) on each side in the state of Chihuahua or the Sonoran Desert (0.01% of Mexico) could supply all of Mexico's electricity.

Is Mexico ready for a 'distributed generation' solar project?
The relative success of the smaller "distributed generation" projects are a sign of Mexico's huge untapped potentialin solar. A 2020 World Bank report estimated that the country would need to dedicate only 0.1 per cent of its territory to utility-scale photovoltaic power plants to cover its entire yearly electricity consumption.

Solar to Sumec Phono Solar Australia. We wanted to highlight Sumec as our parent company to illustrate a major difference between Sumec Phono Solar and our competitors which is "Confidence of Longevity". This is important because in 2011 there were more than 400 solar panel manufacturers approved for install in Australia.
