

Who are the distributors of victron energy products in the Philippines?

For the supply of the off-grid system Josie and Koos Mulder (the J&K in the design and installation company name) chose PhilSolar Equipment and Trading Corporation, who are the the official distributors and importers for Victron Energy products in the Philippines.

Does victron energy have a microgrid?

Whilst the Ligad community now have their own microgrid and their own arrangements to ensure ongoing funding through PAYG energy usage, Victron Energy also have a range of similar systems available to distributors and system integrators that are suitable for solar home systems and mini-grids - which can be used in a similar PAYG affordable manner.

Who is victron energy?

We've been innovating battery-based power systems for almost fifty years; during that time we've become best known for building the world's largest range of Solar Charge Controllers, Inverters, Chargers, [...] Showroom of everything... Remotely monitor Victron Energy equipment all over the world.

What are the guiding principles for energy development in Micronesia?

In addition, the policy establishes the following guiding principles for energy development in the Federated States of Micronesia: (1) the spread of benefits to disadvantaged communities, (2) increased public awareness and local capacity, (3) private sector involvement, and (4) community solutions.

How does the geography of Micronesia affect electricity?

The single island of Kosrae has an electrification rate of 98%, while Chuuk, spread across seven major island groups, achieves a rate of 26%.⁵ Aside from limiting access to electricity, the geography of the Federated States of Micronesia has several other adverse effects on utility operations.

Does Micronesia have a state-owned utility company?

state-owned electric utility company. Because the Federated States of Micronesia is so geographically dispersed, three of the four utilities must serve a populous core island or group of islands as well as numerous remote islands; the Kosrae Utility Authority is the only utility that serves a single island.
