

Moldova bali solar panels

Do solar panels work in Bali?

By using solar panels in Bali, Lombok, and the islands east Indonesia you will benefit from a great sun exposure year-round, with some areas better than others. On average, 1kW of solar PV (photovoltaic) system in Bali produces 4.2 kW-hours worth of electricity per day, year-round on average.

How much does a solar system installation cost in Bali?

For a standard rooftop solar system installation in Bali, you can expect around IDR 10 - 20 million (+/- USD 650 - 1,300) per kWp (kilowatt peak) installed. This price typically includes solar panels, inverter, and everything else you need to get a working on-grid solar system installation. Additional costs that may occur include:

Are solar panels a good investment in Indonesia?

Unlike years ago, solar panels and rooftop PV systems in Bali, Lombok, and other areas in Indonesia, are now quite affordable and make great financial sense.

How much does a solar system cost in Bali and Lombok?

How much does a solar panel system cost in Bali and Lombok? For a standard rooftop solar system installation in Bali, you can expect around IDR 10 - 20 million (+/- USD 650 - 1,300) per kWp (kilowatt peak) installed.

What size Solar System do you need for a villa in Bali?

A 12.8 kW system is a pretty big system and may not be needed for a standard 2-3 bedroom villa in Bali. Villas around this size might find a 3-7 kW solar system sufficient. Here is another example from a medium-sized 3 bedroom villa in Umalas, South Bali.

Why should you invest in a solar system in Bali & Lombok?

Bali and Lombok are blessed with abundant sunshine year-round, hence the break-even period and return on investment for a solar system are very attractive. Let's take a look at some examples* from our past clients:
