What makes Montserrat a more prudent choice?

Chairman of the task force and Director of Energy for the Government of Montserrat, Kenrick Burke said, "We believe that a more prudent choice for Montserrat is an aggressive and multi-faceted strategy of diversification and development of the most feasible indigenous energy resources."

How much does electricity cost in Montserrat?

Montserrat's utility rates start at \$0.53 per kilowatt-hour(kWh) for residential customers, which is above the Caribbean regional average of \$0.33/kWh. Like many island nations, Montserrat is almost entirely dependent on imported fossil fuels, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

Is Montserrat ready to compete in a globalised market?

MCWLE Minister Dr. the Honourable Samuel Joseph said "Montserrat's future is highly dependent on its ability to compete in a globalised market. Our energy security and independence are crucial to us meeting this objective.

Can Montserrat become a net energy exporter?

According to the Energy Task Force Report, "Montserrat has the potential to emerge as a net energy exporter through the aggressive development of its geothermal resources." A significant barrier highlighted in the 129-page document, is the lack of financing for project implementation.

Should Montserrat choose two energy futures?

"Montserrat must choose between two energy futures. Currently, imported fossil fuels provide 99.4 percent of Montserrat's energy needs.

Should Montserrat choose a business-as-usual route?

Currently, imported fossil fuels provide 99.4 percent of Montserrat's energy needs. Choosing a business-as-usual route, which would sustain and potentially even exacerbate our dependence, exposes us to the tremendous risk of oil and gas price fluctuations and shocks, possible supply disruptions, and rising greenhouse gas levels.

Director, Accord Energy Solutions Limited · James is a founding Director of Accord Energy Solutions Limited.
