Baterías Genesis EP Las baterías de alto rendimiento Genesis EP se fabrican con la tecnología de placas delgadas de plomo puro (TPPL) para ofrecer más potencia en menos espacio. Las baterías Genesis EP son adecuadas para numerosas aplicaciones físicamente exigentes y son seguras para entornos humanos como oficinas y hospitales.

Today, Genesis EP TPPL technology can be found in applications as diverse as electronics, medical equipment, telecommunications, lawn and garden equipment, computer backup and UPS applications. the TPPL technology ...

EnerSys Genesis G200EP 0797-2101 Batteries 12V 200Ah Pure Lead Battery for Electronics / Medical Equipment / Telecommunications / Computer Backup / UPS ... EnerSys is with you all the way. With manufacturing facilities strategically located in Asia, Europe, and North America, a strong global sales and support team, and a reputation for world ...

iGenesis Technologies Limited, Myanmar. iGenesis Technologies Limited, is a leading Telecom Services Provider Company in Myanmar offering services and solutions to address the Network Life Cycle requirements of Telecom Operators, Technology providers (OEM's) and ...

Akumulatory Genesis EP Wysokiej jakości akumulatory Genesis EP sa wykonane w technologii cienkich plyt z czystego ołowiu (TPPL), co zapewnia większa moc na mniejszej powierzchni. Akumulatory Genesis EP sa odpowiednie do szerokiego zakresu wymagających fizycznie zastosowań i sa bezpieczne dla środowisk ludzkich, takich jak biura czy szpitale.

Genesis EP Premium high performance Genesis EP batteries are manufactured with Thin Plate Pure Lead (TPPL) technology, packing more power into a smaller footprint. Genesis EP batteries are suitable for a wide range of physically demanding applications and safe for human environments such as offices and hospitals.

Genesis XE (TPPL) Genesis XE (HEV)?

Genesis EP batteries are found in applications as diverse as electronics, medical equipment, telecommunications, renewable energy, computer backup and Uninterruptible Power Supply (UPS) applications. In addition to its superior performance characteristics, the Genesis EP battery non-spillable design allows for mounting in any position (except ...

EnerSys Genesis XE95 thin plate pure lead battery excels in demanding environmental and cycling applications such as: Alternative energy applications, e.g. solar and wind power Hybrid electric vehicles (HEV) XE95 Performance Features:Wide operating temperature range: -40°C to 45°C300+ full
