I live in Arizona and purchased a solar system for my home from Green Home Systems. It worked ok but didn't produce like I was promised. It stopped working in September of 2023 and to this date (April 2024) they have NOT fixed it!! They finally sent a tech in December of 2023 who diagnosed the problem to be a bad Solaredge converter.

At Green Home System, we are dedicated to providing high-quality solar services, installation, and supply to help you harness the power of the sun for your home or business. Green Home Systems is a solar energy contractor that offers the design and installation of residential and commercial green energy systems. This company has been in the industry for five years and has a strong reputation.

Green Home Systems will typically cost between \$11,000 and \$15,000; the pricing for the system largely depends on where you are located, how much electricity your system needs to produce, and what type of solar panel you choose.

Green Home System is a leading provider of solar energy solutions for residential and commercial properties. We are committed to helping our customers reduce their carbon footprint and save money on their energy bills through the power of solar energy.
