Renewable energy here is the sum of hydropower, wind, solar, geothermal, modern biomass and wave and tidal energy. Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important energy source in lower-income settings.

The joint ventures involve the Renewable Energy Localization Company (RELC), which is fully owned by PIF, and Vision Industries, a Saudi firm investing in green industries and value chain. In the deal with Envision, the Chinese company will hold a 50% stake, while RELC will have 40% and Vision Industries 10%.

The expansion of renewable energy in Nicaragua has been led by foreign companies. The energy sector ranks among Nicaragua's top five sectors receiving foreign investment, Sanchez said. "A government priority" Nearly \$1.1 billion of foreign investment went into Nicaragua's energy sector between 2007 and 2013, according to ProNicaragua.
