community solar subscription management company, reached commercial operation and started producing clean energy in November. These community solar sites, in both Versant Power and Central Maine Power utility territories, add nearly 25 megawatts (MW) of clean power to the ...

Upon reviewing my bills from ampion the math shows they've been billing me for essentially 25 cents per KWH. I am currently doing the math in order to present to a law firm but it appears I have been charged in excess of 1,000\$ more than what the standard offer would have been over the period of which i have been subscribed. THE ampion ...
