

Nordic solar a s Indonesia

Who is Nordic solar?

At Nordic Solar, we specialise in the development, construction and operation of utility-scale solar parks across Europe through collective investment in advancing the energy transition towards a brighter future. Our core expertise lies in the development, construction, and operation of utility-scale solar parks.

What is Nordic Solar's Solar Park?

The solar park has been built using Nordic Solar's proprietary, patented design for bifacial solar panels which produce energy from both the front and back. In addition, a number of initiatives to promote biodiversity in the area have been included in the development of the solar park.

Why should you choose Nordic solar?

Discover Nordic Solar's commitment to clean energy solutions. From developing and constructing utility-scale solar parks to divesting operational projects, we manage the entire value chain. Explore our strategic focus on eg. greenfield projects, contributing to the energy transition. Join us on a journey towards a more sustainable future.

Will Nordic solar build a second solar park in Sweden?

We are therefore very pleased to start the construction of our second solar park in Sweden now, which is also the largest we have built in the country to date," says Nikolaj Holtet Hoff, CEO of Nordic Solar.

How did Nordic solar perform in Q1 2024?

At the end of the first quarter, Nordic Solar's portfolio of development projects reached 2,083 MWp, projects under construction totaled 247 MWp and the operational portfolio increased to 469 MWp. In connection with the publication of our Q1 2024 Interim Financial Report, Nordic Solar will host an online presentation at 16:00 this afternoon.

How did Nordic solar perform in the quarter?

During the quarter, Nordic Solar experienced good progress across the portfolio of projects, introducing new greenfield projects in Sweden, maturing the development portfolio, completing a 100 MWp construction in Lithuania and divesting a solar park in Portugal.
