

Oman emirates solar power

What is Oman's largest solar power project?

Commercial operations of Oman's largest utility-scale solar photovoltaic, independent power project, Ibri 2, started in January 2022. Oman Power and Water Procurement Company (OPWP) awarded the project to a consortium of Saudi and Kuwaiti firms, for which Beijing-based Asian Infrastructure Investment Bank (AIIB) loaned \$60 million.

How much solar will Oman need in 2022?

SolarPower Europe said the country will need to install a minimum of 13 GW of solar in total by 2030 to meet its target. It noted that Oman's utility-scale PV capacity stood at 0.5 GW in 2022, thanks to the 500 MW Ibri II solar plant, developed by ACWA Power. The project started commercial operations in August 2021.

Who will build Oman's 'Ibri III' solar project?

The UAE's Masdar and Saudi Arabia's Acwa Power have been shortlisted to develop Oman's 500-megawatt (MW) Ibri III solar project. The plant, launched by Nama Power and Water Procurement Company, will be built at a cost of OR155 million (\$401 million).

When will Oman launch a solar project?

In January 2024, Oman launched a public tender for another 500 MW solar project, Ibri Solar III, with commercial operations due to begin in the fourth quarter of 2026. Public tenders are expected for three new solar projects and five wind projects between 2025 and 2029.

Is Oman a good place to invest in solar power?

The recommendations form part of the "Oman Solar investment opportunities" report, the latest work from SolarPower Europe's Global Markets unit. The report said that Oman's current electricity mix is primarily based on natural gas, accounting for 96% (38 TWh) of power generation in 2022, compared to solar at 3.8% (1.5 TWh).

How can Oman achieve net-zero energy goals?

SolarPower Europe has urged Oman to pursue greater integration of renewable energy, liberalize its market structure, and optimize grid infrastructure to meet its ambitious net-zero targets. The recommendations form part of the "Oman Solar investment opportunities" report, the latest work from SolarPower Europe's Global Markets unit.
