

Outdoor server cabinet British Virgin Islands

Are outdoor server cabinets waterproof?

The 19" waterproof outdoor server racks and cabinets safeguard your sensitive electronics in outdoor environments and ensure they function smoothly and reliably. Our outdoor server cabinets are built to withstand everything, from rain and snow to dust and hot sun. They're even tough enough to resist vandalism.

What are outdoor server cabinets?

The outdoor server cabinets range provide a high quality solution for protecting your telecoms and industrial equipment from the indoor or outdoor elements, optional sizes from 12U to 42U. In addition, these can be wall-mounted, saving space and also highly affordable.

What is an outdoor server rack?

AZE's 19" outdoor server racks and outdoor network cabinets are ideal for protecting sensitive network systems from any damage due to impacts and harsh climatic conditions. These are manufactured from galvanized steel, aluminum or stainless steel material, making them the perfect layer of security against outdoor bad weather conditions.

What are outdoor data cabinets & server rack cabinets used for?

Our outdoor data cabinets and outdoor server rack cabinets are perfect for housing IT, telecom, security, and networking equipment, including 5G and Edge computing applications. We offer both single and double door options, with a bespoke manufacturing and paint service available.

Are outdoor server racks waterproof?

These are manufactured from galvanized steel, aluminum or stainless steel material, making them the perfect layer of security against outdoor bad weather conditions. The 19" waterproof outdoor server racks and cabinets safeguard your sensitive electronics in outdoor environments and ensure they function smoothly and reliably.

How does the outdoor server rack cabinet work?

The cabinet design allows natural wind cooling through filtered vents on the front door and venting under the lip of rain hood. The outdoor server rack cabinet comes 2 or 4 fans with a dust-proof cover located at the top of the cabinet for greater airflow/cooling.
