

Phase change energy solutions Puerto Rico

Does Puerto Rico need new power generation infrastructure?

Puerto Rico must increase new power generation infrastructure significantly--on the scale of hundreds of megawatts--to stabilize the grid and alleviate current generation shortfalls,including rapid deployment of utility-scale and distributed renewable resources and significant amounts of storage.

What is the Puerto Rico energy Resilience Fund?

This program is a consumer-facing application phase of the first round of funding from the Puerto Rico Energy Resilience Fund,a \$1 billion DOE programfocused on improving the resilience of Puerto Rico's electric grid with an emphasis on the region's most vulnerable and disadvantaged households and communities.

Does Puerto Rico have a solar program?

To further assist Puerto Rico's energy resilience and clean energy goals,DOE today announced that on February 22,2024,residents can apply for DOE's Programa Acceso Solar(Solar Access Program) -- a program designed to connect up to 30,000 low-income households with residential rooftop solar and battery storage systems with zero upfront costs.

How do low-income families get solar in Puerto Rico?

Today,low-income families across Puerto Rico can go to energy.gov/solarPR to check their eligibility,prepare required documentation,and identify their local Solar Ambassador. Solar Ambassadors consist of 16 local organizations selected by DOE to conduct outreach in targeted communities and to process applications to the Programa Acceso Solar.

San Juan, Puerto Rico--The U.S. Department of Energy (DOE) and the Federal Emergency Management Agency (FEMA) today released a summary report for the Puerto Rico Grid Resilience and Transitions to 100% ...

Energy Secretary Jennifer Granholm Continues Stakeholder Engagement and Strategic Meetings in Puerto Rico . On March 31, 2023, U.S. Energy Secretary Jennifer M. Granholm concluded a five-day visit to Puerto Rico, focusing on the western and central regions of the island to hear from communities across the island about their unique needs and priorities.

3 ???· The Puerto Rico Energy Public Policy Act (Act 17) requires Puerto Rico's utility to cease all coal-fired energy generation by 2028 and shift to a 100% renewable energy mix by 2050. To help Puerto Rico reach 100% clean energy ...

Phase Change Solutions (PCS) is a global leader in the development and supply of phase change materials
