In some coastal areas, because of the frequent hurricanes, the strength requirements for photovoltaic brackets are very strict, which requires PV bracket manufacturers to be able to design a sufficiently strong solar bracket system. However, the increase in strength is always accompanied by an increase in cost.

Its main business includes various photovoltaic fixed ground mounting structure, distributed mounting structure, tracking photovoltaic mounting structure, building mounting structure, and distributed power station development, etc. It is one of the largest professional manufacturers of photovoltaic brackets in China and the Asia-Pacific region.

The accessories of the photovoltaic bracket need to consider durability, corrosion resistance, adjustability, economy, construction convenience, etc. The materials must be able to withstand various harsh environments at the project site to ensure 25 years of weather resistance and corrosion resistance and structural strength.

Description: The solar panel mounting bracket can be adjusted by 180 degrees and can be used for a long time. Functions: 1. Compatible with various solar panels and photovoltaic systems. 2. Made of high quality 304 stainless steel, it is wear-resistant and rustproof.
