Can solar energy replace fossil fuels on Pitcairn Island?

Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy. The goal is to replace 95% of the current diesel consumption on Pitcairn Island (75,000 liters per year) with a combination of energy saving and solar electricity through the installation of a hybrid photovoltaic solar energy system.

Are the Pitcairn Islands Green?

Pitcairn Islands, a group of five islands with a total area of 47 km² and which constitute one of the most remote archipelagos in the world, turn to safer, greener energies that best meet the needs of the population. Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy.

Where are the Pitcairn Islands located?

The Pitcairn Islands (/ˈpɪtkɛrn /PIT-kairn; Pitkern: Pitkern Ailen), officially Pitcairn, Henderson, Ducie and Oeno Islands, are a group of four volcanic islands in the southern Pacific Ocean that form the sole British Overseas Territory in the Pacific Ocean.

How to get to Pitcairn Islands?

Totegegie Airport in Mangareva can be reached by air from the French Polynesian capital Papeete. There is one 6.4-kilometre (4 mi) paved road leading up from Bounty Bay through Adamstown. The main modes of transport on Pitcairn Islands are by four-wheel drive quad bikes and on foot.

Does Pitcairn Island have an airport?

Pitcairn Island does not have an airport, airstrip or seaport; the islanders rely on longboats to ferry people and goods between visiting ships and shore through Bounty Bay. Access to the rest of the shoreline is restricted by jagged rocks. The island has one shallow harbour with a launch ramp accessible only by small longboats.

Are there Adventist churches in Pitcairn?

Archived from the original on 19 October 2015. Although the Adventist Church has always maintained a resident minister and nurse on Pitcairn, there have been fewer adherents and some church members have moved away from the island. By the end of 2000, regular church attendees among the island population of 40 numbered only eight.

A large part of Pitcairn Island's early history will forever remain a mystery. The full history of both the earlier Polynesian community and of the Bounty settlers will never be completely known.[See "Pre-Mutineer History"] Differing theories and contradicting stories concerning the events that took place after the mutineers arrived at Pitcairn, have been told.

The earliest known settlers of the Pitcairn Islands were Polynesians who appear to have settled on Pitcairn and Henderson Islands by at least the 11th Century, [1] and on the more populous Mangareva Island 540 kilometres (340 mi) to the northwest, for several centuries. These first inhabitants may have maintained a trading relationship with Mangareva, in which they ...

OverviewEconomyHistoryGeographyPoliticsMilitaryDemographicsCultureThe fertile soil of the Pitcairn valleys, such as Isaac's Valley on the gentle slopes southeast of Adamstown, produces a wide variety of fruits, including bananas (Pitkern: plun), papaya (paw paws), pineapples, mangoes, watermelons, cantaloupes, passionfruit, breadfruit, coconuts, avocados, and citrus (including mandarin oranges, grapefruit, lemons and limes).
