What does hydroma do?

Accelerate clean and reliable electricity production and distribution in Africa. Increase international exports of hydrogen and hydrogen derived products. As owners of 100% of Block 25,60 km from Bamako, Hydroma is the world pioneer in the research, discovery, extraction and exploitation of natural hydrogen, also called "white hydrogen".

Is hydroma a natural hydrogen company?

Hydroma Inc is once again showing its zeal to develop the natural hydrogen sector while maintaining its first place. Natural hydrogen gas with over 95% purity has been observed in all newly drilled wells, with traces of helium associated with every hydrogen occurrence.

Where is hydroma drilling?

Undeniable pioneer of the discovery and promotion of natural hydrogen worldwide, Hydroma Inc has been conducting its new drilling campaign on its Block 25 since May 2022, 70 km from Bamako in Mali. Under the leadership of Malian Aliou Boubacar Diallo, the Canadian company is once again demonstrating its resilience and performance.

What is hydroma & PCA doing in Africa & Canada?

Back in December in Washington DC, Hydroma Inc and PCA signed a Memorandum of Understanding (MoU) to develop a green and natural hydrogen project portfolio in Africa and Canada! Check out the details on our Website on the link below: #H2 #greenhydrogen #naturalhydrogen #Hydroma #PegasusCapitalAdvisors #MoU #partnerships

What is hydroma's role in the West African Big Green Deal?

Convinced of the potential of natural and green hydrogen as enablers to accelerate sustainable development and growth worldwide, Hydroma is a key player in the establishment of a robust regional natural and green hydrogen economy via its West African Big Green Deal Initiative and Foundation (W.A.B.G.D.).

Where is hydroma based?

Founded by entrepreneur and Mali-born Aliou Diallo, and committed to high ethical standards and transparency, Hydroma was headquartered in Canada, a country that not only falls under OECD legislation, but is also home to a large, developed mining and oil and gas industry with internationally recognized standards.

Up To Eight Tools In The Cut At Once The ICON part sizes range from a 2" cube to an 8" cube and can put up to eight tools in the cut at once with up to 8 machining units, four horizontal and four vertical units, each with a 10-tool changer fully equipped for your specific applications. Four cutting stations, each with integrated pallet changers produce 5 sided machining with 4 axis ...
