

Proterra battery Djibouti

Will Volvo Group buy Proterra battery business?

Volvo Group has won an auction for Proterra's battery business with a bid of \$210 million- here's what that means for the EV industry. By acquiring the Proterra Powered business unit, Gothenburg, Sweden-HQ'ed Volvo Group is expected to gain a development center for battery modules and packs in California and an assembly factory in South Carolina.

Where are Proterra batteries made?

Our batteries are designed from the cell level up for commercial and industrial usage and have industry-leading energy density, a flexible design, and ruggedized commercial-grade housing. Designed in Proterra's Silicon Valley and manufactured in Greer, South Carolina, by the best minds in battery engineering.

Is Proterra going out of business?

The transaction between California-based EV battery and platform developer Proterra and Volvo Group is, of course, subject to approval by the US bankruptcy court, but the closing is expected in early 2024. Earlier this year, Proterra combined battery and bus production at its South Carolina facility alongside job cuts to cut costs.

Does Proterra recycle lithium ion batteries?

Instead of sending batteries to a hazardous waste incinerator, Proterra works with top-tier recycling companies that specialize in extracting and repurposing materials inside lithium-ion automotive batteries, recovering precious metals used in Proterra batteries.

What is a Proterra S series battery?

The Proterra S series batteries already power medium- and heavy-duty applications on the roads throughout North America. Battery packs in the S series have a width of 860 mm and can contain up to 123 kWh of energy storage per pack.

Is Proterra a public company?

Proterra Inc. was an American electric vehicle and powertrain manufacturer based in Burlingame, California. The company designed and manufactured battery electric transit buses, powertrain systems for other heavy-duty vehicle builders and charging systems for fleets of heavy-duty vehicles. Founded in 2004, it became a public company in June 2021.
