

# Rwanda power energy solutions

What is the energy sector in Rwanda?

The energy sector in Rwanda is made up of three sub-sectors: power, hydrocarbon and new and renewable sources of energy. Amongst the renewable sources of energy are biomass, solar, peat, wind, geothermal and hydropower. Biomass is the most used and dominates both the demand and supply sides of the Rwandan economy.

Where can I find information on energy in Rwanda?

For more information on energy in Rwanda, please visit the websites of the Rwanda Ministry of Infrastructure, RDB, the Rwanda Utilities Regulatory Authority, and the Rwanda Energy Group. They provide information on electricity access, both on-grid and off-grid, including solar home systems and mini-grids.

What is the electricity supply of Rwanda?

The electricity supply of Rwanda is composed of domestic generation and imported electricity from neighboring countries and regional shared power. The nation is on move to construct resilient infrastructure projects countrywide. Efforts are also put in the maintenance and...

What is Rwanda's Energy use?

The country is in the midst of a rapid expansion of its electrical grid and many new plants are proposed or under construction. Biomass is the most important energy source utilized through firewood and agricultural waste for cooking. In 2014, this represented 85% of Rwanda's energy use.

Why does Rwanda need a reliable energy supply?

The Government of Rwanda recognizes that a reliable energy supply is important for social prosperity, human development, and economic growth. The availability of efficient and reliable energy is a prerequisite for these aspects.

How does Power Africa support Rwanda's Energy Sector Development?

Power Africa supports Rwanda's energy sector development through a range of support mechanisms in cooperation with the Government of Rwanda, international finance institutions, development agencies, and private sector partners.

We are a trusted and reliable organisation based in Kigali Rwanda, not only serving customers in the city but all over the country. Our customers value our professionalism, work ethic and our competitive prices. For all your Engineering Services; Project Management and Construction of Energy Solutions; Electrical, Control & Instrumentation Systems

Government of Rwanda within its energy policy on March 2015: "To ensure sufficient, reliable, sustainable and more affordable power supply. This will be achieved through the following measures: i. Revise and
