Solar panels can be mounted on various types of roofs including commercial perma-clad, tile, ballasted, concrete, shingle and car port. Ensure that the custom Grid-Tied (PV) photovoltaic system recommended maximizes wattage consumption and meets all appliance requisites that run under the system, simultaneously feeding your excess electricity ...

The Government of Saint Lucia has a target of generating 35% of its electricity from renewable sources by 2020. This pristine island currently depends on dirty diesel generators for power, but has ambitious goals to revolutionize its economy with solar, wind, and geothermal energy.

Saint Lucia bulk solar panel

St. Lucia electricity is 240 Vac 50 Hz, but power outages are common due to extreme tropical weather and electrical systems that can be unreliable. AIMS Power inverters, inverter chargers, solar panels and other electrical system products can create reliable sources of backup power that residents of St. Lucia need for safety and peace of mind.

A diversified portfolio of solar, wind and diesel was considered optimal in helping Saint Lucia reach its goal of 35 per cent renewable energy penetration by 2020. Such collaboration between a utility company and government is unusual in the region, and another way in which Saint Lucia is spearheading change.
