How much does solar cost in San Marino, CA? Based on the latest data from the EnergySage Marketplace, the average San Marino, CA homeowner needs a 10.39 kW solar panel system to cover their electric bills. That'll set you back about \$23,143 before incentives. Need a bigger (or smaller) system to offset your electricity use?

If you pay for your system with cash, you'll save about \$117,565 over 25 years (the warranty term of most solar panels) on electricity costs with a 5 kW system in San Marino, CA. We generate this estimate based on real solar quote data from our Marketplace. It considers your system's cost, the federal tax credit, and inflation rates.

The Energize Solar With Sustainable And Reliable Energy Systems!
