2018; Nigeria approved a \$1.3 billion deal that would see a group of local companies buy Shell Plc's onshore assets in Africa's biggest crude producer.. Petroleum Resources Minister ...

Indy High Btu LLC engaged SCS Energy to build their new Renewable Natural Gas (RNG) plant under an EPC agreement. The landfill gas-to-RNG plant designed by SCS protects the environment while providing cost-effective renewable cleaner-burning energy solutions. SCS Energy is a practice of SCS Engineers specializing in biogas, anaerobic digestion ...

SCS utilizes our expansive experience to improve the overall constructability of the systems we engineer. Our full line of design services include: 2D & 3D Design; Foundations; Structural; Boiler; Pressure Parts; BFB and Vibrating ...

2018; Shell secured the Nigerian government's approval of a major asset sale in the country by committing to a fresh large-scale investment in the Bonga North field, the Financial ...

December 14, 2020 SCS Energy: Landfill Methane to Renewable Natural Gas, 5.1 Million Gas Gallon Equivalents of RNG Annually. The New River RNG facility will capture and convert approximately 1,900 dekatherms per day of landfill methane to renewable natural gas (RNG), which is enough to offset emissions from 7,500 ...

Southwestern Community Services strives to empower low income people and families. With dignity and respect, SCS provides direct assistance, reduce stressors, and advocate for such persons and families as they lift themselves toward self-sufficiency.

A leader in the boiler relocation and retrofit industry, SCS has been trusted for more than 20 years to provide our customers with experience and knowledge unmatched in the field for the retrofit of used and existing fossil fuel fired boilers to burn a variety of biomass fuels in order to provide "green" power and steam for the independent ...

Many plants designed and built by SCS produce green energy from renewable biomass fuels including wood waste, TDF, bagasse and paper-mill sludge. Much of the fuel used in these plants would otherwise go to landfills and decompose into CO2. The top 5 reasons customers choose SCS for their energy, construction and maintenance solutions:

SCS utilizes our expansive experience to improve the overall constructability of the systems we engineer. Our full line of design services include: 2D & 3D Design; Foundations; Structural; Boiler; Pressure Parts; BFB and Vibrating Grate Boiler; Package Boilers; Material Handling. Ash Conveying Screw, Drag & Pneumatic

21 ?????&#0183; Shell secured the Nigerian government's approval of a major asset sale in the country by committing to a fresh large-scale investment in the Bonga North field, the Financial Times reported today ...

SCS Energy focuses on renewable energy design/build/operate projects in the renewable biogas and renewable power markets. We want to achieve renewable energy goals, reducing greenhouse gases, and creating useful by-products from waste with SCS plants. SCS builds systems that power universities, wastewater treatment plants, generate renewable ...

1 ??&#0183; LAGOS, December 20, 2024 - Nigeria plans to auction undeveloped oil and gas blocks with known discoveries in 2025, the Nigerian Upstream Petroleum Regulatory Commission ...

Renewable Energy. A large portion of the energy we consume could be renewable. Renewable energy is energy that can be naturally replenished (sun, geothermal, etc.), and it can be used to power electrical systems and to heat and cool buildings. There are growing opportunities to generate and use energy resources such as geothermal and solar.
