What is Sint Maarten's national energy policy?

renewable energy.<sup>10</sup> The plan also emphasizes the need to raise awareness of energy conservation among individuals and businesses through communication campaigns. Sint Maarten developed a National Energy Policy (NEP) in 2014 that aims to mitigate the impact of energy use on the environment while reducing electricity tariffs.

What does gridmarket do for Sint Maarten?

GridMarket was chosen as Sint Maarten's exclusive renewable energy partner to help the island reach 85% renewable penetration and 100% heavy fuel oil free by 2030. Sint Maarten will work with GridMarket to identify, design, procure, and install distributed energy assets and make corresponding infrastructure upgrades.

How much does electricity cost in Saint Martin?

For Sint Maarten, the equivalent rates are roughly \$0.35/kWh. Like many islands, Saint Martin is highly dependent on imported fossil fuels, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

To address this, St. Maarten should be turning to an innovative solution: waste-to-energy (WtE) technology. This technology promises not only to manage waste sustainably but also to generate clean energy, reduce landfill volumes, and create hundreds of jobs, providing a much-needed economic boost.

Sint Maarten joins the Independent State of Samoa, the Kingdom of Tonga, and other governments around the world that have joined IRP and are leveraging the GridMarket platform to achieve their energy goals.
