

Small household photovoltaic panels with lighting

A solar panel on the roof with a few wires leading to a small battery bank powers my laptop, and a radio mounted on a tree for receiving the wireless broadband signal. The system also provides enough energy to charge several small power tools, run our home sound system and, amazingly, power a full-size chest refrigerator year round.

Need lighting or power and mains electricity not available? Solar Panels provide free solar energy without the need to hire an electrician. Simple, easy to follow, DIY friendly instructions are included with every Solar Panel kit to make it easy to do anything from installing a lightbulb right through to powering a home office using solar power. Select a Solar Panel option below or ...
