A power purchase agreement (PPA), or electricity power agreement, is a long-term contract between an electricity generator and a customer, usually a utility, government or company. Ppas may last anywhere between 5 and 20 years, during which time the power purchaser buys energy at a pre-negotiated price Power Purchase Agreement (PPA) Payments

The solar panels and inverter must be on the lists of Clean Energy Council approved modules and inverters. The value of STCs you receive is based on the estimated amount of electricity your solar system will generate until 2030. This amount depends on: the size (kW) of your solar system (up to a maximum of 100 kW)

A recent study found that solar panels are viewed as upgrades, just like a renovated kitchen or a finished basement, and home buyers across the country have been willing to pay a premium of about \$15,000 for a home with an average-sized solar array. Additionally, there is evidence homes with solar panels sell faster than those without.

Solar panels can be very advantageous in Scotland, with an average 3kW to 4kW system breaking even in 8 to 9 years.; A system for the average 3-bedroom Scottish home can cost between £5,000 to £8,500, saving £440 to £660 annually.; Several grants can help subsidise solar panels, with schemes like the Home Energy Scotland Grant and Loan offering up to £9,000.
