Push Lawnmowers. Push lawnmowers are traditional, manually operated tools for maintaining smaller lawns. Designed without engines or motors, they rely on human power to propel and operate the cutting blades. These push mowers are lightweight, easy to manoeuvre, and environmentally friendly, emitting no exhaust fumes or noise pollution.

2. Push Mowers. If you ever tried to earn some pocket money by cutting lawns as a kid, you're probably all too familiar with push mowers. Push mowers require the user to push them manually to cut the grass. Depending on the size of your lawn, this can be backbreaking work. Push lawnmowers are best suited for small lawns -- up to about an ...

Cordless Lawn Mower: These mowers' motors are powered by batteries that are rechargeable. Cordless lawnmowers do not have a physical cord attached to run the unit. These mowers are typically quieter than gas lawn mowers. Push Mowers: These are the most common type of lawn mowers, and they come in gas-powered, corded, and cordless models.
