

Solar battery stand Benin

Who can benefit from a new off-grid solar scheme in Benin?

Households, smallholders and entrepreneurs in remote locations across Benin will be able to access reliable and cheap electricity for the first time under a new off-grid solar scheme agreed between leading solar energy company ENGIE Energy Access and the European Investment Bank, one of the world's largest financiers of renewable energy.

Will EIB support Engie to deploy off-grid solar power in Benin?

The new Benin cooperation follows EIB's previous support for ENGIE to deploy off-grid solar power in Uganda. Benin is the sixth African country to benefit from the EIB's streamlined support for African off-grid energy investment, following recent backing for projects in Mozambique, Uganda, Chad, the Democratic Republic of Congo and the Comoros.

Why did Electrifi invest in Les Soleils du Bénin?

Les Soleils du Bénin's General Director, also shared his thoughts on the investment, saying, "This investment from Electrifi is a significant milestone for Les Soleils du Bénin. It underscores the importance of partnerships and demonstrates the shared commitment to providing clean energy access to the people of Benin.

What can Engie do for Benin?

Following the new agreement between ENGIE and the European Investment Bank, households, entrepreneurs and smallholders across Benin will be able to access electricity for mobile phones, solar lighting, refrigeration, radio and television.

Will Engie support off-grid solar deployment in West Africa?

The European Investment Bank is pleased to agree new support for scaling up off-grid solar deployment to West Africa under this new partnership with ENGIE. "For the first time, more than half a million people across Benin will be able to access electricity that will power communications, provide light and make cooking easier.
