

Solar energy cluster Guam

Will Guam get 330 megawatts of solar power by 2028?

Workers could be seen at the site of the Mangilao Solar Project on Aug. 12, 2021. The Guam Power Authority wants to award two major contracts for solar farms in Dededo and Santa Rita-Sumai, the first two in a series of projects which are anticipated to add a huge 330 megawatts of power to the grid by 2028.

What data is available on Guam's energy sector?

Introduction This report summarizes the currently available data on Guam's energy sector as of December 2023. It describes primary energy consumption, end uses, energy production, relevant policies, and key challenges, including details on the electric power and transportation sectors.

Does core tech solar have a legal dispute with Guam Waterworks Authority?

Commissioners did raise some concerns about the award to Core Tech Solar, as affiliate company Core Tech International is currently locked in a multi-million-dollar legal battle with the Guam Waterworks Authority. GPA needs approval from the CCU, before taking the contract awards to the rate-setting Public Utilities Commission for final approval.

Does Guam have a virtual power plant program?

Regulations are described in Guam Code § 8309. As per Guam Code § 8603, GPA must develop a Virtual Power Plant Program. The program would initially be capped at 20 MW and provide an alternative rooftop solar program to address the challenges of the Net Metering program. This program is currently under development.

How many Customer-Sited distributed energy resource systems are there in Guam?

Over 2,000 customer-sited distributed energy resource (DER) systems represent significant assets to Guam's renewable energy (RE) generation. Nearly 22 MW of DER generation capacity accounted for 2.6% of total generation/sales and 23% of total RE generation/sales in 2021 (see Table 6).

How many generating units does Guam Power Authority have?

Guam Power Authority's generating assets are composed of 12 primary generating units for a combined 487.7 MW total generation capacity (Benavente 2023).

The Guam Power Authority is moving ahead with Phase 4 of its renewable energy integration plans and is seeking to get approval for two 25-year renewable energy purchase agreements, one for...

In July 2022, CleanCapital expanded its portfolio by acquiring the utility-sized, 36.6 megawatt (MW DC), "Dandan" solar facility located in Inalan, Guam. The site has ground-mount solar and is comprised of 52 ...
