How many people in Senegal will get solar power?

Nearly 540,000 people in Senegal will get access to clean and affordable power following the launch of two solar photovoltaic (PV) plants, financed by IFC, the European Investment Bank and Proparco, under the World Bank Group's Scaling Solar program.

Does Senegal need a solar power plant?

Senegal's power sector has been historically reliant on costly fuel imports, with about 80 percent of its energy mix being oil-based. "The Kael and Kahone solar power plants exemplify our commitment to supporting Senegal's transition to cleaner, more affordable energy, while creating business opportunities for local communities.

Who sponsors Senegal's solar power plants?

The PV plants, located in Western Senegal, are sponsored by Engie, Meridiam, and the Senegalese Sovereign Wealth Fund for Strategic Investments ( FONSIS ). The competitive tendering process was led by Senegal's Energy Regulatory Commission ( CRSE ). For more information, please read the press release here.

How many jobs will the new solar power plants create in Senegal?

The addition of the solar power plants form part of the World Bank Group's Scaling Solar program and are funded by the International Finance Corporation (IFC), European Investment Bank and Proparco. The project estimates that more than 400 jobs in the towns benefit from the existence of the new solar power plants in Senegal.

Will solar be Senegal's cheapest energy source?

The planned Scaling Solar projects underscore Senegal's commitment to integrating renewable energy resources into its energy mix. The successful tender set a new benchmark for the region. With prices under 4 US cents per kWh, solar energy will become Senegal's cheapest energy source. Questions or Interest? Subscribe to our mailing list.

How many people in Senegal have electricity?

According to World Bank data, over 70% of the population of Senegal currently has access to electricity. The planned Scaling Solar projects underscore Senegal's commitment to integrating renewable energy resources into its energy mix. The successful tender set a new benchmark for the region.

This is Meridiam's second solar power project in Senegal, delivering an additional reliable supply of low-cost and low-carbon electricity. Overall, Ten Merina is a significant contributor to Senegal's installed solar PV capacity and is providing clean and affordable power to more than 200,000 Senegalese people.
