

Solar panel in the Indonesia

Unlike years ago, solar panels and rooftop PV systems in Bali, Lombok, and other areas in Indonesia, are now quite affordable and make great financial sense. Most solar panels offer at least a lifespan of 25 (while ours offer 30 years, by the way, with a performance warranty!) and you can get a solar system for around IDR 10 - 20 million per ...

As of June 2023, Indonesia's rooftop solar photovoltaic (PV) capacity reached 95 megawatts (MW), with an impressive 72% of this capacity coming from household installations. The province of Banten leads the way in solar panel adoption, boasting 2,997 users and a total capacity of 12.4 megawatts peak (MWp).
