A parabolic solar oven uses a reflective dish to concentrate large amount so sunlight onto a cooking vessel. This sheer amount of energy can top temperatures in excess of 250°C and allow users to cook using a frying pan as if on a stove top. Depending on the design, a parabolic solar oven can look like a shiny satellite dish. That is because ...

The British Indian Ocean Territory (BIOT) is an Overseas Territory of the United Kingdom situated in the Indian Ocean, halfway between Tanzania and Indonesia. The territory comprises the seven atolls of the Chagos Archipelago with over 1,000 individual islands, many very small, amounting to a total land area of 60 square kilometres (23 square ...
