Pope launches project to get Vatican to run solely on solar power. ... VATICAN CITY -- Pope Francis appointed two special commissioners to start work on building an agrivoltaic system on a Vatican property outside of Rome that could supply the whole of Vatican City's energy needs.

By Carol Glatz Catholic News Service VATICAN CITY -- Pope Francis appointed two special commissioners to start work on building an agrivoltaic system on a Vatican property outside of Rome that could supply the whole of Vatican City's energy needs. "There is a need to make a transition to a model of sustainable development that [...]

From 20 December, official inauguration day - and in perfect timing to receive the thousands of faithful and visitors who will flock to the Eternal City for the opening of the Jubilee Year - the glass "roof" of the Vatican Museums' "Courtyard of the Corazze" entrance will unveil its new green and eco-friendly guise, thanks to the construction, in the record time of six months, of ...

Vatican City may be the smallest sovereign state in the world, but it is also one of the greenest. It has long been an exemplar for tackling climate change through its approach to renewable energy. Thanks to a unique photovoltaic plant installed on the roof of the Vatican Audience Hall, the Papal State has been producing 300 MWh of solar energy ...

The Vatican goes green: Pope announces new solar plant to power Vatican City. Pope Francis has renewables on his mind as he says he wants Vatican City to run on solar power. To achieve his aim, solar panels will be installed on a Vatican-owned property outside Rome. The power generated could supply all of Vatican City's energy needs.

Pope Francis has renewables on his mind as he says he wants Vatican City to run on solar power. To achieve his aim, solar panels will be installed on a Vatican-owned property outside...

Pope Francis has unveiled plans for a solar plant that will let the Vatican City generate all its electricity from renewable sources. With an area of 121 acres or 0.44km² and a population of around 825, the Vatican City in Rome is the smallest independent state in the world by both area and population.. It has now earned itself another accolade: one of only a few ...
