

Solar power generation at the Dutch ice skating rink

How much does a solar ice rink cost?

Initial costs to build a 100% solar- powered Olympic-sized ice skating rink as designed by Sun Ice, according to Mouchet, include approximately \$1.8 million for electrical insulation of solar panels that can be bought locally. The price for the PCM layer, while coming down, is about \$1.5 million.

Can solar panels be used in a skating arena?

Sun Ice, explains that while solar panels can be placed across the entire roof of a skating arena, less than half of that power is required to charge the Sun Ice PCM system. With roughly three hours of sun per day, the energy that is produced is stored to maintain the desired latent temperature of the PCM.

Can solar ice rinks reduce energy costs?

Last spring, engineers at Singapore-based Sun Ice Energy were busy constructing an ice rink 100% powered by solar panels with the goal of significantly reducing the energy costs. That proof-of- concept rink went live last November, and after several months of testing, all indications are that the simulation is meeting all objectives.

Who is Sun Ice Energy?

The 73-year-old president and founder of Singapore-based Sun Ice Energy has decades of successful technical innovations under his belt. But perhaps none is more revolutionary than the world's first zero-carbon ice skating rink, cooled 100% by solar energy, and currently under construction in Singapore.

How do solar panels work in ice rinks?

The containers are laid inside the ice rink floor, between an insulating material XPS layer and the concrete floor supporting the ice sheet. When solar panels are placed across the entire roof of a skating arena, less than half of that power is required to charge the Sun Ice PCM system.

Will a 5 meter ice skating rink be built in Singapore?

Last spring, engineers at Singapore-based Sun Ice Energy were busy constructing a 5-meter by 5-meter ice skating rink (See the June/July 2023 issue of SKATING magazine).

So just what is it that makes the Dutch such a formidable force on the ice? We take a look at a variety of factors that have contributed to the success of a sport in a country where speed skaters enjoy the same icon status as footballers.. In the course of the first five days of competition at Sochi 2014, Dutch speed skaters claimed four out of a possible five gold ...
