

Solpex energy Myanmar

Who is solpex energy?

Solpex Energy is a global project developer who creates wealth and added value, carrying out projects in the renewables sector. We focus on solar and wind power as a clean and inexhaustible energy source.

What stages of a project can solpex energy work at?

We have the capability to work at every phase of a project: early stages of development, feasibility, design, tenders, construction and asset management. Solpex Energy is a global project developer who creates wealth and added value, carrying out projects in the renewables sector.

Why should you choose solpex?

With Solpex, our customers can enjoy the beauty of solar energy without compromising on quality or style. Solpex believes that being close to nature is everyone's right, and outdoor living doesn't necessarily mean darkness, mud, and heavy construction, but can be a convenient, enjoyable, and clean green experience.

Solpex, the pioneer in solar-powered lighting solutions, was born out of a passion for innovation and a commitment to sustainable living. Our journey began with a simple idea - to harness the power of the sun and transform it into beautiful, energy-efficient and innovative lighting solutions.

Solpex Energy Profile and History. Solpex Energy designs efficient solar and wind power installations, taking in account expenses, investment return and minimizing risk. (Site analysis, shadows study, production simulation, cost estimation, technology comparison, bussines plan).

Solpex Energy designs efficient solar and wind power installations, taking in account expenses, investment return and minimizing risk. (Site analysis, shadows study, production simulation, cost estimation, technology comparison, bussines plan).
