

As it has been a whole decade since we began integrating energy storage solutions, we thought we would take the opportunity to champion our success by sharing with you 10 ways in which Alfen's TheBattery is currently providing value to our customers.

Bredenoord choose Alfen because of its proven solutions in mobile battery energy storage for many years. "Bredenoord already started using batteries more than 10 years ago. In these years we have seen how energy storage in batteries has developed enormously, which means that we can now deploy smart multifunctional systems", says Toon Bruining ...

Alfen's TheBattery Mobile is an innovative and reliable multi-functional mobile energy storage system. Based on more than 5 years of experience and product maturation, TheBattery Mobile X is Alfen's latest and best solution capable of reliably providing the power and energy you need for events, construction sites, EV charging hubs and many ...

2021 marks the 10th year since Alfen's first foray into battery storage solutions. What better way to mark the first decade than by getting those responsible for the technical and commercial development and delivery of the product to tell us a little about themselves and the journey they have all been on, from original concept to the current ...

As it has been a whole decade since we began integrating energy storage solutions, we thought we would take the opportunity to champion our success by sharing with you 10 ways in which Alfen's TheBattery is currently providing ...

TheBattery Connect is de module van Alfen Connect die wordt gebruikt als energiemanagementsysteem voor de energieopslagoplossing van Alfen, TheBattery. Klanten krijgen toegang tot TheBattery, draadloos en via hun eigen IT-systemen, voor alle opslagtoepassingen: handel, frequentiecontrole, peak shaving en autonome netten.

Alfen's TheBattery Mobile is an innovative and reliable multi-functional mobile energy storage system. Based on more than 5 years of experience and product maturation, TheBattery Mobile X is Alfen's latest and best solution capable of ...

Contractors involved. Alfen is the technology provider for the project. Alfen is the system integrator. Additional information. Vattenfall has selected Alfen to deliver a battery energy storage system of 20 MWh in the university town Uppsala in Sweden. Alfen's scope consists of the delivery of an energy storage system of 20 MWh (5 MW) based on BMW car batteries, ...

Somalia alfen battery storage

Alfen's energieopslagoplossingen zijn gebaseerd op twee hoofdproducten: TheBattery Elements en TheBattery Mobile accu containers zijn op maat gemaakt voor verschillende markten en toepassingen, maar gebaseerd op dezelfde ontwerpprincipes om optimale prestaties, flexibiliteit, modulariteit en een lange levensduur te garanderen.

TheBattery Connect is Alfen Connect's module used as an energy management system for Alfen's energy storage solution, TheBattery. Clients are given access to TheBattery, wireless and via their own IT systems, for all storage applications: trade, frequency control, peak shaving and autonomous grids.

First battery storage project in Belgium. Alfen is the first company to install a battery based energy storage system to provide so-called Frequency Containment Reserve (FCR) for stabilizing the Belgian grid. The system can regulate over 1 MW of power and is connected to Elia's high-voltage grid at Engie's 6MW storage park in Drogenbos ...

Alfen, a Netherlands-based provider of electric vehicle (EV) charging, smart grid and energy storage solutions has reported a 526% increase in half-year revenues for its storage segment. The Euronext Amsterdam exchange-listed company announced its interim consolidated financial statements for the first half of 2023 (H1 2023) this morning.

Almere, The Netherlands 22 February 2023 - Alfen, an energy solutions specialist at the heart of Europe's energy transition to limit climate change, and SemperPower, a leading player in the development of independent large-scale energy storage projects in The Netherlands, are excited to launch Project Pollux - the largest battery energy ...

Alfen, an energy solutions specialist at the heart of Europe's energy transition to limit climate change, and Centrica Business Solutions, a global leader in decentralized end-to-end energy solutions, are working together to build Centrica's first battery storage development project in mainland Europe

Energy solutions integrator Alfen is building a 12MW battery energy storage system (BESS) with black start functionality for co-location with a wind farm in Finland. Netherlands-based Alfen is building the BESS, which it ...

Following an announcement earlier this month that Alfen will build the Czech Republic's first large-scale battery energy storage system (BESS), the Dutch grid-scale system integrator has just completed a ...

Alfen, a Netherlands-based provider of electric vehicle (EV) charging, smart grid and energy storage solutions has reported a 526% increase in half-year revenues for its storage segment. The Euronext Amsterdam ...

TheBattery Mobile X is a significant leap forward in mobile battery energy storage technology. With its increased capacity, improved safety features and unparalleled versatility, it empowers industries to reduce their carbon footprint and embrace a cleaner future.

TheBattery Mobile X is a significant leap forward in mobile battery energy storage technology. With its increased capacity, improved safety features and unparalleled versatility, it empowers industries to reduce their carbon footprint ...

Alfen has signed an agreement with Vasa Vind that marks its first battery energy storage system co-located at a Swedish wind farm. Alfen will design, engineer, install and commission a 20MW TheBattery Elements energy storage system in connection to one of Vasa Vind's wind farms by the end of 2024. Alfen will also provide a long-term service agreement to ensure the system ...

Alfen and SemperPower are launching Project Pollux - the largest battery energy storage system in terms of energy capacity ever built in the Netherlands. Located in Vlissingen, the storage system featuring Alfen's TheBattery Elements will solve two of the energy transition's biggest challenges: an unbalanced grid and the unpredictability of ...

2021 marks the 10th year since Alfen's first foray into battery storage solutions. What better way to mark the first decade than by getting those responsible for the technical and commercial development and delivery of the product to tell us a ...

TheBattery Connect is Alfen Connect's module used as an energy management system for Alfen's energy storage solution, TheBattery. Clients are given access to TheBattery, wireless and via their own IT systems, for all storage ...

Energy solutions integrator Alfen is building a 12MW battery energy storage system (BESS) with black start functionality for co-location with a wind farm in Finland. Netherlands-based Alfen is building the BESS, which it claims is Finland's third-largest, for electricity generation company EPV Energy's Teuva wind farm.
