

South Korea renusol vs

Does renusol work with JA Solar?

Following a project-specific requirement, Renusol tested together with JA Solar combined systems of Renusol mounting system on pitched tile roof as well as metal roof (VS+ and MS+) together with JA solar panels.

What type of roof is renusol vs+ suitable for?

Renusol VS+ is suitable for nearly all types of pitched roofs in Europe. The reasonable choice of roof hooks allows the installation in the roof with the most diverse roof covering materials and substructures. Two mounting rails for medium and high load. Module clamps adjustable for different frame heights.

Why should you choose renusol?

The successful test is a further example of Renusol proving its commitment for safety, its technical expertise and for a successful cooperation and support of partners. Renusol Europe GmbH specialises in the manufacturing and sale of PV mounting systems for roof-integrated, rooftop and flat-roof installations.

Are renusol systems safe?

Renusol systems are on the safe side. Our experienced technicians advise you, our online-tools are comfortable and transparent, and we deliver reliably. We, at Renusol, do everything imaginable to facilitate our customers' life.

Who owns renusol Europe?

Since 2017, the Pari Group acquired the company and has continued the business of Renusol GmbH, which has been active on the solar market since 1997. Renusol Europe conducts its business in all the core markets of Europe as well as those in the Middle East and Africa from its headquarters in Cologne, Germany.
