In St. Vincent and the Grenadines, high mountain ranges and dense forests ensure a water supply that is as pure as possible. The country's lone water provider, the Central Water and Sewerage Authority (CWSA), has over the years managed to build a purely gravity-fed infrastructure, which means pumps are not required in its distribution process. ...

The Greenlinx battery system has two advantages in a power outage, compared to homes that only have grid-supplied electricity: it can feed emergency power to appliances and lights. The system also has a socket, so that an external appliance, for example a heater or a kettle can be plugged into it, even if the mains power is shut off.
