The service was introduced to Nigeria by NTA Star TV Network Limited in 2010. The service makes use of the DVB-T (Digital Video Broadcast on Terrestrial) technology. As such, it doesn't need the installation of a dish for subscribers to enjoy its services.

It's almost certainly a hoax. The Dogon people had been visited by European visitors many times, most notably when they hosted French astronomers looking to find a good vantage point to observe the solar eclipse

Star time solar price Mali

of 1893.

According to the International Renewable Energy Agency (IRENA), Mali boasts significant solar power potential, particularly in its northern regions, where annual sunshine hours exceed 3,000 hours. This abundant sunlight provides a strong natural foundation for the implementation of solar energy projects.
