

Startec energy Maldives

Who is startec energy?

For nearly 25 years and through its subsidiaries, Startec Energy has been innovating and designing the technologies of tomorrow. As an expert in electronic and electrical solutions, nearly 300 customer studies have been carried out and have enabled the group to establish its reputation and know-how. Intermediate and large-scale production.

How will aspire and rise help the Maldives' energy transition?

World Bank-financed projects ASPIRE and ARISE support the Maldives' energy transition by installing more than 53.5 megawatts of solar capacity and 50-megawatt hours of battery storage. This will reduce Maldives' annual import bill by about \$30 million, with a project lifetime saving of \$756 million over 25 years.

Will Stelco introduce battery-powered electricity?

By the year's end, State Electric Company Limited (STELCO) plans to introduce battery-powered electricity to at least five islands. The details of this strategy have been unveiled by the company.

What are the challenges facing solar projects in Maldives?

Challenges facing such projects include integrating solar with existing power sources on the grid, off-taker risk, weak procurement, and planning capacity. The objective of the ASPIRE project is to increase photovoltaic (PV) generation in Maldives through private-sector investment. Approved in 2020, the ARISE Project scaled up this process.

How will aspire solar projects benefit Maldives?

In general, the projects will benefit the people of Maldives and the government by lowering electricity prices and providing quasi-budgetary support. 2014 - The first 1.5 megawatt (MW) solar project under ASPIRE had four investors' bids, resulting in a high PPA of 21 US cents per unit of electricity.

Why are engine power plants important in Maldives?

Maldives is an island nation mainly thriving on tourism and resorts. The engine power plants are required to perform at optimum levels at all times to ensure a reliable supply of energy for the communities and businesses in varying situations.
