

Store energy from solar panels Bahamas

Who is Bahamas solar?

At Bahamas Solar we take care of your project from start to finish. Offering full turnkey systems for all residential and commercial operations. Serving all The Bahamas, from Nassau to the out islands. We offer customized solutions tailored to your specific needs. The first step to going solar is a site assessment.

Why should you choose green solar energy in the Bahamas?

Why choose green solar energy in the Bahamas? A reliable, safe and clean form of energy. With power costs at approximately \$0.42/kwh and worldwide fuel costs constantly increasing, solar is an efficient and environmentally responsible alternative to mains power.

What is net metering in the Bahamas?

This will introduce net-metering, which is the recording of energy flows in both directions. As the Bahamas has close to six daily peak sun hours. Solar Power can offset a significant part of your power bill. Our goal is to design and build systems that can achieve maximum independence from the ever increasing cost of power.

What is the Bahamas national energy policy?

BESS AWARDED 'BEST MICROGRID PROJECT' AT THE CREF 2022 INDUSTRY AWARDS! The latest release of The Bahamas National Energy Policy documents the country's plans to implement renewable energy generation. This will introduce net-metering, which is the recording of energy flows in both directions. As the Bahamas has close to six daily peak sun hours.

What are the benefits of solar power?

A reliable, safe and clean form of energy. With power costs at approximately \$0.42/kwh and worldwide fuel costs constantly increasing, solar is an efficient and environmentally responsible alternative to mains power. The use of diesel generators to provide power pollutes our environment providing harmful emissions and the likelihood of spillage.

How long does solar installation take?

Solar installation is the fun part, our customers get to see the whole system come together. Installation timelines range from one to five days. Monitoring insures your solar panels are working properly by tracking the output of your solar system. You gain 24/7 peace of mind that your whole system is working effectively.
